## PROFILE

During the past 4+ years, I dedicated my time to intensive preparation for Government job opportunities, which allowed me to developed a strong foundation in various subjects and skills. Although I am a fresher in the professional realm, my commitment to self-improvement, disciplined study routines, and the ability to adapt to evolving challenges have equipped me with essential qualities for the workplace. This career gap has enabled me to cultivate perseverance, time management, and analytical thinking. I am excited to apply these attributes, alongside my educational background, to a dynamic work environment where I can contribute effectively and continue my growth as a professional.

## WORK EXPERIENCE

SERVICENOW DEVELOPER

*Decemeber 2022 - Present*

- I have worked on Servicenow portal.
- In Servicenow, I have worked basically in ITSM Module and catalog items.
- Also did some REST API Integration, where I created a scripted REST API to summon the data into an JSON object and moved to another Instance through FIX Script.
- I have used these following tools in the Servicenow portal.
- Business Rules, Client Script, Schedule Job, Script Include, Agile methodology, ACLs, CMDB CIs, Incident management, Problem management, Catalog items, Record producer, Workflow, Flow Designer, Fix script.
